DRIVER SAFETY TECHNOLOGY

The all new electric  
MG ZS EV is available  
to drive now.

The MG ZS EV battery  
fast charges up to  
80% in just 40 min.

The new MG ZS EV  
is the first affordable  
electric car.

# MG ZS EV

A famous reputation built on sporty and distinctive cars, MGs are both affordable and a joy to drive.

Built to the highest standards in our state-of-the-art manufacturing plants, we are so confident of the quality and reliability of the new MG ZS EV that we give it a 3 year manufacturer's warranty, which includes the lithium-ion battery as well.

**3** YEARS  
100,000  
Kilometer

# FEEL THE ENERGY

**THE NEW MG ZS EV IS THE FAMILY FRIENDLY ELECTRIC CAR, DESIGNED FOR THOSE WHO WANT ALL THE ADVANTAGES OF A ZERO EMISSIONS VEHICLE WITHOUT COMPROMISING ON PRACTICALITY OR STYLE.**

Benefitting from our extensive experience in the manufacture of electric cars and batteries, the ZS EV pairs beautiful design with outstanding technology.

Powered by a 44.5kWh, water-cooled lithium-ion battery, you can enjoy a driving range of up to 163 miles from a single charge\* on the WLTP combined cycle.

Managed by MG's Intelligent Battery Temperature Control system, the battery pack is insulated from external temperature variations, delivering the optimum power and range whatever the weather.

Designed to achieve dynamic handling and chassis feel, the ZS EV's powertrain has been intelligently packaged to achieve a low centre of gravity.

Housed underneath the passenger compartment as part of the ZS EV's flat-floor architecture, the balanced distribution of weight keeps the ZS EV planted to the road through the corners.

The ZS EV delivers 353Nm of instant torque and with 105kW of power, the equivalent of 143PS.

\*From a single charge on the WLTP combined cycle: Combined Range: 163 miles (263 km); City Range: 231 miles (372 km); Combined Driving Efficiency: 18.6 kWh/100km.

# UNPLUG AND PLAY

At home, the new MG ZS EV can recharge on a standard 7kW home charger in seven hours, allowing you to simply and easily charge your ZS EV overnight – or if you ever find yourself out and about in need of a boost, the UK has plenty of rapid charging points compatible with the MG ZS EV.

Charging the new MG ZS EV could not be simpler thanks to its CCS and Type 2 ports, mounted within the front grill for easy access from either side of the car.

**40 MINS**  
to 80%

**FEATURING RAPID CHARGING CAPABILITY,  
THE ZS EV CAN CHARGE TO 80% IN JUST 40  
MINUTES FROM A 50KW CHARGING POINT.**

Electric Parking Brake

Front & Rear Electric Windows with Driver's One-Touch up/down

Auto Headlights

Rear Parking Sensors

Electrically Adjustable, Heated Door Mirrors

17" Diamond Cut EV Alloys

## THE EV LIFE

The new MG ZS EV comes with a 44.5 kWh lithium-ion battery. It's water-cooled which optimises charging capability and range whatever the weather.

Charging is best done overnight at home on a 7kW domestic charger, with a full charge taking 6.5 hours.

On the go, the MG ZS EV can be rapid charged to 80% in just 40 minutes. It can be charged using most Type 2 or CCS charging points installed across the UK.

# MG PILOT: HIGH TECH AND SAFE

## ACTIVE EMERGENCY BRAKING (AEB)

At speeds below 12 mph, the car will automatically apply its brakes to avoid a collision with a vehicle, bicycle or pedestrian. At speeds above 12 mph, AEB will reduce the likelihood or mitigate the severity of an accident.

## LANE KEEP ASSIST (LKA)

Lane Keep Assist uses a camera to detect lane markings ahead and monitors the vehicle's position in its lane. When the function detects the vehicle is about to unintentionally move out of its lane, it warns the driver by means of a visual, audible and steering wheel vibration. The car will also control the steering to keep within its lane.

## ADAPTIVE CRUISE CONTROL (ACC)

Adaptive Cruise Control (ACC) monitors the road ahead. As long as the road ahead is clear, ACC maintains the speed set by the driver. If the system spots a slower vehicle within its detection range, it gently reduces speed by releasing the accelerator or actively engaging the brake control system. If the vehicle ahead speeds up or changes lanes, ACC automatically accelerates back to the driver's desired speed.

ZS EV IS THE FIRST MG TO FEATURE THE MG PILOT SUITE OF DRIVER ASSISTANCE TECHNOLOGY TO LEND A HELPING HAND AND GIVE YOU ADDED CONFIDENCE ON THE ROAD. A SELECTION OF WARNING AND ALERT FEATURES ASSIST THE DRIVER, MAINTAINING SAFETY AND SIMPLIFYING EVERYDAY DRIVING.

## TRAFFIC JAM ASSIST (TJA)

When Adaptive Cruise Control is turned on, Traffic Jam Assist continuously analyses the speed of the surrounding vehicles and compares it with its own driving speed. If the system detects dense traffic or a traffic jam at speeds below 35 mph, the driver can activate TJA. The car will automatically follow the vehicle in front, controlling its acceleration, braking and steering within the same lane.

## BLIND SPOT DETECTION (BSD)

This system keeps a lookout to help you change lanes safely. A radar sensor serves as BSD's electronic eye, registering objects in hard-to see areas. Whenever there is a vehicle in the driver's blind spot, a visual signal will show in the door mirror.

## INTELLIGENT HIGH BEAM ASSIST

When the headlight high beam is set to the AUTO position, the system automatically switches to low beam when it detects a vehicle ahead. This enables drivers to maximise the use of high beam, making night-time driving safer, without the risk of dazzling on-coming traffic.

## INTELLIGENT SPEED LIMIT ASSIST

The car will actively detect speed limit signs and alert the driver of the current speed limit by way of a symbol on the driver's instrument cluster. The symbol acts as a reminder to the driver, reducing the risk of exceeding the speed limit.

# COMFORT AND CONVENIENCE

SO YOU GET THE MOST OUT OF THE NEW MG ZS EV, WE'VE THOUGHT VERY CAREFULLY ABOUT EVERYTHING WE PUT INTO IT. EVERY INCH OF THE STYLISH, SPACIOUS INTERIOR HAS BEEN DESIGNED TO MAKE SURE THE DRIVER, THE PASSENGERS AND EVEN THE FAMILY DOG WANT FOR NOTHING.

Inside, there are beautifully soft materials, and stitched leather effects for that extra luxury. There's also an 8" colour touchscreen with Apple CarPlay™ and Android Auto™ allowing for seamless integration with your own technology. DAB Radio, keyless entry and satellite navigation further enhance the level of technology found within this family friendly electric SUV.

The ZS EV comes as standard with a simple to use automatic transmission, controlled by a rotary gear selector in the centre console. Engineered to provide ultimate refinement in all driving conditions, owners benefit from a stress-free driving experience over long distances, and in stop-start city traffic.

As the most technologically advanced MG ever, driver personalisation has been taken to a new level, and can be configured in multiple ways... Firstly, the ZS EV is equipped with three levels of regenerative braking, which extends your driving range, improves the braking efficiency and energy conservation.

There are also three driving modes on the new MG ZS EV — **ECO**, **NORMAL** and **SPORT**, allowing the car to fully adapt to your everyday driving needs.

## BOLDER EXTERIOR

The MG ZS EV does not compromise on aesthetics. Inspired by the majestic London Eye, the headlamps give the EV a powerful persona, the kind which makes it stand out from the crowd. Not only it aesthetically compliments the grille, but also brings out the glam quotient.

The 17" alloy wheels are sturdy and powerful, inspired by the Dutch Classic windmills, lending the SUV a premium appearance.

The Panoramic sunroof allows you to breathe more light into the cabin. It's like having the sky as your companion on every journey you take with your EV.

THE LONDON EYE HEADLIGHTS

EXCLUSIVE FRONT GRILLE

RACING TAIL LIGHTS

WINDMILL INSPIRED ALLOY WHEELS

## ELECTRONIC GEAR SHIFT KNOB

Ride away, smoothly. MG ZS EV's electronic gear shift knob gives you a complete sense of control over your gear shifts.

## Luxury Interior

Sleek simplicity is the theme in the MG ZS EV's interior. The MG ZS EV is packed with a range of features that make the cabin feel comfortable, convenient and relaxing.

## SPORTY & STYLISH INTERIOR

TECHNICAL SPECIFICATION

PERFORMANCE & TRANSMISSION	EXCLUSIVE
Transmission	Automatic
Front Suspension	MacPherson Struts
Rear Suspension	Torsion Beam
Electric Motor Type	Synchronous Motor
Battery Capacity, kWh	44.5
Maximum Power PS, (kW)	143 (105)
Maximum Torque, lb ft (Nm)	260 (353)
0-62mph (seconds)	8.5
Maximum speed (mph)	87
CO <sub>2</sub> - NEDC Equivalent g/km	0
Charger Connection Type	Type 2 plus CCS
Estimated 7kW Charge Time (full charge) / hours	6.5
Estimated 50kW CCS Charge Time (to 80%) / mins	40
Driving Range: WLTP Combined Cycle (miles)	163
Driving Range: WLTP: City (miles)	231
Driving Efficiency: WLTP City miles/kWh (kWh/100km)	4.9 (12.8)
Driving Efficiency: WLTP Combined miles/kWh (kWh/100km)	3.3 (18.6)
